

ABOUT RAMPO CONTROLS

Rampo Controls established in 1991 to manufacture electrical control panels to cater to the needs of industries multistoried building etc.,

Objective is to produce Quality products of immense value with our experience, our technical group has in the field.

Vision is to higher in the field of panel building by achieving top quality products.

We give prominence to safety, innovative and delivery on time. We work for the enhancement of the status held by our clientele in the field of their working.

We instill Quality controls technique and R & D programmes to deliver world class products.

CERTIFICATE

Panels are type tested at **C.P.R.I. Bangalore** for short time with stand capacities upto 50 kA for 1 sec.

Panel is tested for heat run test upto 2000A capacity at CPRI, Bangalore.

SERVICES

we have the necessary infrastructure to build the above panels and have the necessary test facilities to prove the panel efficacy at site.

We follow the relevant standards for manufacture guidance and strictly adhere to the same during production.

High standards of manufacture are instituted by using quality products which have proved themselves well in the field of Electrical engineering.

INFRASTRUCTURE

Organisation is a proprietary unit housed at No. 19, Rajagopalnagar Main Road, Opp. Nagalingeshwara Temple, 7th Main, Near Peenya 2nd Stage, Bangalore - 560 058 and registered under SSI.

Company has a well trained engineers & Technical group for design, development, production and quality controls.

We have instituted stage wise inspection for proper control.

Aim is always to be reliable and responsible for all the customers and respond to their calls at all times.

LT CONTROL PANEL

- ✓ Power Control Centre
- ✓ Distribution boards
- ✓ Generator control panel
- ✓ Control & relay panels
- ✓ Change over panels
- ✓ Auto power factor control panels
- ✓ ACDB & DCDB panels
- ✓ Bus Turnkey
- ✓ Auto Synchronizing, Auto load sharing & AMF Panels with scada.
- ✓ Motor Control Centre
- ✓ Metering panels multistoried building
- ✓ LT breaker panel.
- ✓ PLC based automation panels.
- ✓ Control desks
- ✓ Feeder Pillars
- ✓ LT & HT segregated & non-segregated bus ducts
- ✓ HT capacitor banks.
